Declarations

- **Target Journal:** *Journal of Graphic Engineering and Design* (JGED), University of Novi Sad, Serbia.
- **Funding:** This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.
- **Use of Generative AI:** The authors used Claude (Anthropic), a generative AI large language model, as an assistant for language editing, support in writing and debugging analysis code, and LaTeX formatting. The research questions, study design, data collection, execution of the analyses, results, and their interpretation are the authors' own work; all AI-assisted output was reviewed and verified by the authors, who take full responsibility for the content of this article. No figure was produced with image-generation tools.

- **Conflict of Interest:** The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
- **Data Availability:** The complete dataset, crawl logs, extracted CIELAB colour pairs, and analysis scripts are permanently archived in Zenodo (DOI: 10.5281/zenodo.22907769) and GitHub (`https://github.com/JuanAvilesP3/jged-contraste-cromatico`).
